Adamsez trays will not flex.

Fully encapsulated timber chassis.

Lack of rigidity? The Adamsez solution

Heavy duty feet.

Unique foot positioning.

Feet completely plumb.

Fitted on moulded flats.

No movement.

In introducing their range of innovative acrylic trays, Adamsez has applied the same flair and expertise that has underpinned their reputation for quality throughout their many years in bathroom design. Using their engineering experience they have developed shower trays that deliver new standards of rigidity and durability in terms of strength, performance and style.

The Adamsez patented tray is quite simply the best tray on the market. It is manufactured to the highest standards of excellence from the finest acrylic which is then strongly reinforced with fibreglass. It comes with an easy clean, front located waste, pre-fitted and factory levelled feet and a revolutionary tiling up stand. It has a superb click-on, click-off panel fixing mechanism which means that there is always a consistent margin between the tray and panel thus ensuring that its overall appearance is never compromised.

When properly fitted the Adamsez tray will not creak, move, leak or flex. With its high gloss finish this beautiful tray benefits from a lifetime guarantee and is the ultimate choice for those wanting only the best in their bathroom.

Panels don't fit? The Adamsez solution

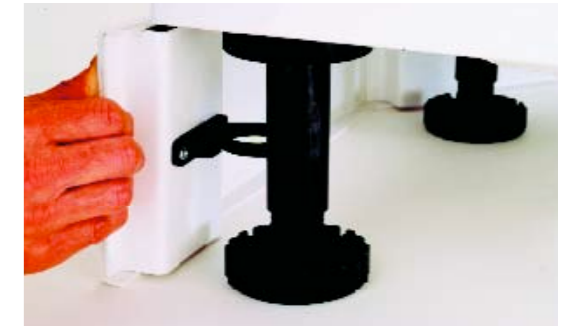

Patented click-on, click-off panel fixing mechanism.

Feet with top and bottom bosses.

Consistent margin between tray and panel.

Easy access.

Quality appearance.

Tiling upstands don't work? The Adamsez solution

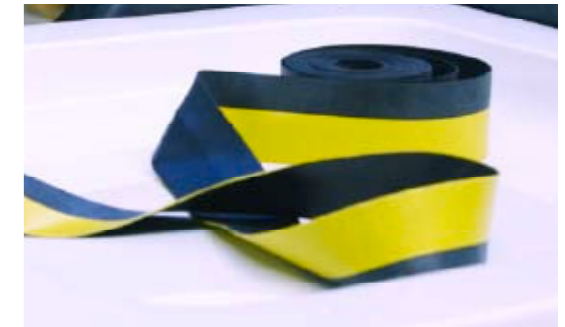

Revolutionary tiling upstand.

Easy to apply.

Goes round corners.

Sticks immediately.

Allows for wall inconsistencies.

More Expensive? The Adamsez solution

Less time to install.

Less on site breakage.

Does not require lead plinth.

Feet factory fitted and levelled.

Includes chrome waste and upstand.

Lifetime guarantee.
